first

```c
#include <stdio.h>

int main() {
    FILE *fp;
    fp = fopen("a.txt", "w");

    if(fp == NULL) {
        printf("Write Error!!\n");
        return 0;
    }

    fputs("Hello World!!! \n", fp);
    fclose(fp);

    return 0;
}
```
